

General Practice Extended Access Service

Is the Extended Access Service for me?

For some, including those with work, caring or other commitments, seeing or speaking to us during our standard practice opening hours can be tricky.

The Extended Access Service aims to offer a greater range of appointment availability to patients for routine problems. The types of support available is very similar to that offered by your surgery during normal working hours.

Extended access services offer appointments with a variety of clinicians including GPs, Advanced Nurse Practitioners (ANPs), Nurses, Health Care Assistants, Physiotherapists, Pharmacists and Healthy Mind Practitioners (Mental Health & Wellbeing).

Where will my appointment be?

Some of the extended access services are virtual (i.e., by phone or video call) and some face to face (F2F). All face-to-face appointments will be held at Gibson Lane Practice - Gibson Ln, Kippax, Leeds LS25 7JN.
